Composite Structures **8** (1987) 327–328

CONTENTS OF VOLUME 8

Number 1

Is Fatigue Testing of Impact Damaged Laminates Necessary? 1
R. JONES, J. F. WILLIAMS and T. E. TAY (Australia)

Large Deflection Behaviour of Thick Composite Plates 13
GAJBIR SINGH and Y. V. K. SADASIVA RAO (India)

Stress Ratio Effect on Cyclic Debonding in Adhesively Bonded Composite Joints 31
S. MALL, G. RAMAMURTHY and M. A. REZAIZDEH (USA)

Shear Coefficients for Thin-Walled Composite Beams 47
LAWRENCE C. BANK (USA)

Free Vibration of Composite Rectangular Plates with Rectangular Cutouts . 63
H. P. LEE, S. P. LIM and S. T. CHOW (Singapore)

Number 2

Curvature Effects in the Buckling of Symmetrically-Laminated Rectangular Plates with Transverse Shear Deformation 85
JAMES M. WHITNEY (USA)

Determination of Calibration Constants for the Hole-Drilling Residual Stress Measurement Technique Applied to Orthotropic Composites—Part I: Theoretical Considerations 105
C. B. PRASAD, R. PRABHAKARAN and S. TOMPKINS (USA)

Damage Mechanics for 3-D Composites 119
J. P. DUMONT, P. LADEVEZE, M. POSS and Y. REMOND (France)

A Finite Element Package for the Analysis of Sandwich Constructions . . 143
D. J. O'CONNOR (Northern Ireland)

Book Review 163

Number 3

Determination of Calibration Constants for the Hole-Drilling Residual Stress Measurement Technique Applied to Orthotropic Composites—Part II: Experimental Evaluations 165
C. B. PRASAD, R. PRABHAKARAN and S. TOMPKINS (USA)

Composite Structures (**8**) (1987)—© Elsevier Applied Science Publishers Ltd, England, 1987. Printed in Great Britain

Mechanical and Structural Properties of a GRP Pultruded Section . . . 173
G. D. SIMS, A. F. JOHNSON and R. D. HILL (UK)

Thermal Buckling of Laminated Cylindrical Plates 189
LIEN-WEN CHEN and LEI-YI CHEN (ROC)

Shear Buckling of Corrugated Composite Panels 207
K. P. RAO (USA)

Finite Element Analysis of Composite Revolution Structures Wound by Wide Plies 221
J. P. JEUSETTE (Argentina), G. LASCHET (Belgium),
P. CHARPENTIER (France) and PH. DELOO (Belgium)

Book Reviews 239

Announcements 242

Number 4

On Higher Order Shear Deformation Theory of Laminated Composite Panels . 247
A. V. KRISHNA MURTY and S. VELLAICHAMY (India)

Nonlinear Analysis of Interlaminar Stress in Graphite/Epoxy Laminates with and without Delamination Cracks 271
J. K. CHEN and C. T. SUN (USA)

Nonlinear Equations of Laminated Panels with Laminated Stiffeners . . . 287
IZHAK SHEINMAN (Israel)

Inserts for Fastening Sheet Molding Compounds 293
S. V. HOA, A. DI MARIA and D. FELDMAN (Canada)

Prediction of Material Property Parameter of FRP Composites Using Ultrasonic and Acousto-ultrasonic Techniques 311
V. K. SRIVASTAVA and RAVI PRAKASH (India)

Book Reviews 323
